Yes, I'm eclectic and unusual and that's what makes me so lovable! I'm perched here overlooking Beulah and looking out onto my bucolic setting on over two acres of lovely meadow and just waiting for my new owners to love me! Enter the foyer and you'll be greeted by an open and airy space that's perfect for entertaining and living the "open spaces" modern family lifestyle that's so popular now. A spacious living area is grounded by contemporary glass tile letting in natural light while maintaining privacy. The kitchen will be the gathering spot for family and friends and features a breakfast bar, updated appliances, custom cabinetry and granite counters. A butler's pantry with wine fridge separates the kitchen area from the formal dining space that features more natural light. Upstairs find a spacious master bedroom loft-suite with skylights and hand scrubbed wood floors. The spa-like master bath features custom cabinetry, skylights and an enormous walk in closet fitted with custom shelving. On the lower level of the main house you'll find the perfect living space for an au-pair, in-laws or guests. A bedroom, family room, full bath and spacious utility-laundry room complete the lower level. Travel through the walkway that connects the main house with the "tower" and you'll find a circular family room surrounded by windows. Upstairs find a cozy third bedroom with raised bunk bed, a full bath and another cozy fourth bedroom. I'm situated on over two acres of beautiful meadow so there's lots of area to run and play. An enormous barn-garage holds two cars and there's tons of storage. An attached workroom is perfect for a man-cave or she-shed. There's also another shed for even more storage. A lovely gazebo looks out onto the lovely meadow. I've got multiple decks off the lower level and kitchen so you'll enjoy the out-of-doors here as well. So yes, I'm a little eclectic and not cookie-cutter so if that's what you're looking for, I'm it!
