This Hillcrest 5 bedroom home with California kitchen is built with something for everyone. Enjoy the two living areas for relaxing, a sleek office for work, smart home system in media room or a spacious game room. The owner's retreat is on the first level with a reading nook and large walk-in closet. The other 4 bedrooms upstairs all have walk-in closets, and one bedroom has a balcony. Well appointed kitchen with gas cook-top, double ovens, butler's pantry and granite counters lend well when hosting friends or a large gathering. Under the covered backyard patio, you can cozy up to the stone-faced hearth fireplace on those beautiful cooler evenings.
