Tranquility within the quiet community of Equestrian Estates, the home draws you into an era of refinement and quality. From the moment you pass through the private iron gates and enter the intimate court yard with the soft sounds of water cascading down the cantara fountain, you are drawn into your own authentic Spanish colonial setting. Perfect for entertaining with your friends, and taking in the majestic views of the surround mountains, it is but the beginning of your journey with this exceptional home. As you push open the massive missionary custom mesquite front doors, your senses begin to take in the details that make this home so special. The home pulls you from room to room as you encounter vessel sinks, mesquite vanities, a copper freestanding bathtub,

all imported from Guadalajara, and meticulously stained custom doors and kitchen cabinets. The floor blends perfectly as you transition from Mexican quarried travertine to hand hewn wood. The kitchen draws your attention as the deep colors of the onyx counter-tops play of the wood. This beautiful home is available fully furnished.

Amenities
